## **GTA Social Enterprise Directory**

Though social enterprise is an increasingly popular concept within business and community organizations, its broad definitions lead to many questions about who actually qualifies as a social enterprise.

The definition of social enterprise that Aperio proposes is one that includes any organization or initiative that attempts to advance its social mission within a market-based business model. As such, this definition allows for both non-profit and for-profit entities to fall under the umbrella of “social enterprise”.

This directory attempts to present a comprehensive listing of GTA-based enterprises that reflect this inclusive definition. However, it is our hope that this is just a starting point of hopefully many versions of the GTA Social Enterprise Directory, and that we will be continually learning about new enterprises and adding them to the list. Therefore, if you know of any venture that fits this notion of social enterprise but is not yet represented in the directory, please contact us. Finally, we would like to acknowledge the work of the following organizations whose own directories we consulted in helping build this valuable community resource:

- Toronto Enterprise Fund
- Centre for Social Innovation
- Social Capital Partners
- Green Enterprise Toronto
- C. Land Consulting
- Social Purchasing Portal
- SPEN Toronto

If you have any suggestions, questions, or concerns about the directory, please contact Ada Puiu at Aperio: [ada.puiu@aperio.ca](mailto:ada.puiu@aperio.ca). The index is contained at the end of the directory.
